Mission Statement:

“Making Government Accountable” is a 501c4 that will inspire, motivate, and educate America on the Michigan success story as a real-world example of making government better. Why a 501c4 - Because they are specifically charged with promotion an issue for the common good of society. And that’s just what America needs right now.

We are seeking funds & resources from citizens and organizations that share our commitment to make Michigan and state governments across the country more efficient, more effective, and more accountable. Governor Snyder will be our leading voice. To explain, educate, and advocate how his common-sense problem solving brought Michigan back – and how it can bring America back next.
